SUMMARY

Full-Stack Developer with 4+ years of experience in Java, Spring Boot, Angular, and Oracle DB, delivering scalable solutions across education, telecom, and e-commerce domains. Proven expertise in microservices, API security (OAuth2/JWT), and cloud integration with measurable business impact (e.g., 25% faster task resolution, 35% fewer unauthorized access attempts). Certified in Azure Fundamentals and Spring Professional.

SKILLS

Backend: Java (21), Spring Boot, Spring AI, Hibernate, Microservices, REST APIs, OAuth2, JWT

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML, CSS, Bootstrap

Databases: Oracle, PostgreSQL, Redis

DevOps & Tools: Docker, Jenkins, Git, GitHub/GitLab, Maven, IBM MQ, JasperReports

Cloud: Microsoft Azure (AZ-900 certified)

Other: GraphQL, Shell Scripting, DSA, JUnit Testing, Log4j2

EXPERIENCE

Tata Institute of Fundamental Research (TIFR) | Project Scientific Officer (C), Java Full-Stack Developer Jul 2024 – Present

- Built production-ready secrets management solution using Spring Boot and Hashicorp Vault, AppRole authentication with automated token lifecycle management, versioned secrets storage, role-based access policies.
- Worked as lead developer on migration of a portal for maintaining researchers data from JSP to Angular, Spring boot.
- Designed and implemented a ticketing system with Angular + Spring Boot, reducing resolution time by 50%. Integrated OAuth2 with JWT authentication & caching, improving security and retrieval speed by 20%.
- Implemented Bucket4j rate-limiting for REST APIs, cutting unauthorized access by 35% in an existing web application used for managing the workflow of the institute.
- Automated templated email notifications, saving 10 hrs/week.
- Built financial module features (accounting, pension, payroll) and enhanced reporting using JasperReports.
- Developed a centralized access management system with role-based access across multiple centers.
- Implemented RSA encryption/decryption modules for secure data handling.

Infosys Limited | Senior Systems Engineer / Java Developer Oct 2023 – Jun 2024

- Resolved IBM MQ logging issues by optimizing WebLogic/JMS configs (accuracy +30%).
- Fixed telecom module mismatches, reducing order errors by 15%.
- Migrated Log4j1 → Log4j2, mitigating security vulnerabilities.

- Automated tasks via shell scripting, cutting manual interventions by 20%.
- Managed deployments during tech refresh, ensuring 100% uptime.

Infosys Limited | Systems Engineer

Sep 2021 – Oct 2023

- Developed Azure-authenticated Redis cache components, reducing data retrieval time by 18%.
- Enhanced application functionality, boosting system responsiveness by 15%.
- Optimized Magento components for a US e-commerce client, increasing site engagement by 10%.

EDUCATION

- B.E. Computer Engineering | Savitribai Phule Pune University (2017–2021)
CGPA: 7.85

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)

PROJECTS

- Surrounding Audio Scene & Event Identification – Python, TensorFlow, Keras
 - Built an ML model to classify audio scenes; published in the JETIR([ISSN: 2349-5162](#)) Journal.

AWARDS AND ACHIEVEMENTS

- Infosys RISE INSTA Award (Q2 FY23-24)
